About Me

Final-year IT student at HCMUTE with hands-on experience building REST APIs and full-stack applications. Strong OOP foundations and familiar with Java, Spring Boot, and SQL through school projects and personal practice. Comfortable using AI tools to scaffold, refactor, and accelerate learning. Looking for an internship to grow into a backend engineer who builds production-grade systems.

Skills

- Language: Java
- Frameworks: Spring Boot, Spring Data JPA, Spring Security
- Databases: MySQL
- Tools: Git, Postman
- AI Tools: Cursor, ChatGPT, Gemini
- Others: OOP, Teamwork

Education

- Ho Chi Minh City University of Technical Education
Software Engineering 2022-Present
GPA: 3.15/4.0

WORK EXPERIENCE

HITEK Solution 07/2025 - 10/2025

Intern Software Developer

- Developed real-world web applications following client-server architecture
- Designed and built RESTful APIs following REST principles (resources, HTTP methods, status codes, error handling), with clear request/response contracts
- Implemented JWT authentication and configured CORS for secure API access
- Collaborated in a team environment with task division, code review, and technical discussions

Projects

Airline Mobile App

Team number: 2

- Designed REST API with 30+ endpoints across 15 controllers
- Built MySQL schema with 26 tables including bookings, booking_details, flights, passengers, seat_reservations, fare_classes, promo_codes;
- Implemented JWT-based authentication using Spring Security
- Used Spring Data JPA with custom JPQL @Query methods and findBy derived queries for flight search filters (route, date, fare class, seat availability)
- Tech: Java 17, Spring Boot 3.4.3, Spring Data JPA, MySQL, JWT

Certificate

- TOEIC R&L: 620
